

Dear Students,

Summer is almost here! We know you will be busy with lots of activities and all sorts of fun. We hope that one of those activities will be reading some good books!

During the summer months we would like all of our students to record the books that they read on The Summer Reading Log and create one response to the book of their choice. Please bring The Summer Reading Log and the book response with you on the first day of school.

**Students entering third grade should read at least five chapter books. Your response will be to use the four square template attached to create a story map of a book of your choice. Illustrate and color each section on the template and write one sentence describing your drawing.**

Enjoy your summer reading. We look forward to reviewing your Summer Reading Log and sharing your book response with your new classmates.

Happy Reading,  
ECES Teachers
