Dear Eastern Christian School Community,

We are committed to protecting student, teacher, and staff health. To protect our community and be in compliance with the Department of Education regulations, Eastern Christian tested our schools' drinking water for lead.

Results of our Testing

Following instructions given in technical guidance developed by the New Jersey Department of Environmental Protection, we completed a plumbing profile for each of the Eastern Christian School buildings. Through this effort, we identified and tested all drinking water and food preparation outlets. Of the 56 samples taken, all tested below the lead action level established by the US Environmental Protection Agency for lead in drinking water (15 $\mu\text{g/l}$ [ppb]).

This letter along with results will be posted on our school website.

Sincerely,

Jeff Botbyl
Director of Operations
