We make things work for you.

Concrete Restoration and Paving Notification PSE&G Gas System Upgrade Project

Dear Valued Customer:

PSE&G has completed the gas main upgrades in your neighborhood. Now that the ground has settled, we will restore roads with permanent paving.

In preparation for final restoration, we will be restoring our trench on High Mountain Rd. between Ballentine Dr. and Church Street/Lupton Bridge with concrete. Upon completion of the concrete work, we will execute the final road restoration by milling and paving on High Mountain Rd. Below is the restoration schedule which is dependent on weather conditions;

Schedule

- Milling 10/8/2019 and 10/9/2019
- Concrete restoration 10/10/2019 to 10/17/2019
- Paving starting 10/18/2019

The milling and paving activities will occur during daytime hours between 7:00 a.m. and 5:00 p.m. **Please abide by all emergency “No Parking” signs, as they will be posted 24 hours before work is scheduled to begin on each street.**

PSE&G will continue to take all necessary steps to avoid any major inconvenience to our customers in the area. However, road and lane closures with possible detours will be necessary during this restoration phase. If possible, motorists are encouraged to travel an alternate route until the work is completed. North Haledon Police will be on site at all times to oversee and assist with new traffic patterns and all efforts will be made to keep interruptions to a minimum.

If you have questions, please call our dedicated Gas Construction hotline at 1-833-661-6100.

We appreciate your patience and cooperation as we work to restore your streets.

Sincerely,

PSE&G Gas Construction Team

PSE&G: People providing safe, reliable, economic and greener energy
